

TO Heads of Scientific Sections, HIA
A J.F. MacDonald (for info)

THIS COPY FOR:

Dr. Herzberg

The Research Associates Office has asked us to provide a list of individuals in the universities to whom we would like the Office to send information concerning the Research Associateships Program. At the present time the literature is distributed to the Presidents, Deans, Department Heads and Placement Officers of Canadian Universities and to major U.S. and Foreign Universities. However, it is felt that the material would be more effective if it is also mailed to our personal contacts in the various universities.

Attached is a list I have compiled of individuals in Canadian Universities, primarily astronomical, to which I would ask you to add your own suggestions, paying particular attention to the francophone universities from which NRC appears to have difficulty attracting good applicants. Also, please supply a list (with addresses) of valued contacts in foreign institutions.

Also enclosed is a copy of the HIA material from the 1977-78 brochure. Please indicate any changes you would like made to this material for the 1978-79 booklet. The deadline is July 24.
