NATIONAL RESEARCH COUNCIL
CONSEIL NATIONAL DE RECHERCHES

MEMORANDUM:-

TO Dr. G. Herzberg:
A

For your information and the information of the Division I would like to advise that our Scientific Liaison Office in London has secured a cable address so that cables may be sent direct to the office rather than through Canada House. Effective immediately the cable address is CANSCIENCE LONDON WC2.

Early in April a telex will be installed in the office. The number assigned is 265073 and the answerback code will be the same as the cable address, namely CANSCIENCE LONDON.

J.D. Babbitt.
