As in previous years, I would like to remind you and your colleagues that the CNRS/NRC Agreement of Cooperative Research provides opportunity for common endeavours with French scientists associated with the Centre national de la recherche scientifique.

The International Relations Secretariat would provide overseas travel expenses while the CNRS would be requested to pay the Canadian scientists a living allowance which presently amounts to 1.000 francs a week.

Should you or your colleagues consider participating during the present fiscal year, I would suggest that the attached application (or facsimile) be filled and returned to me as soon as possible.

Encl.

C. Gauvreau,
International Relations
Secretariat.

THE NRC/CNRS SCIENTIFIC COOPERATION PROGRAM

CANADIAN HUMAN RIGHTS ACT

The information supplied on the attached application form will be used to select individuals for participation in the NRC/CNRS Scientific Cooperation Program. For additional details on the uses of the information provided, and on the rights of Canadian citizens and permanent residents of Canada to inspect and correct the material in their files, please refer to the Federal Information Bank Index available at main Post Offices. Information on the NRC/CNRS Scientific Cooperation Program will be found in Information Bank No. 21612.
