

22 January 1981

Professor S.I. Goldberg,
Department of Mathematics and Statistics,
Queen's University,
Kingston, Ontario
K7L 3N6

Dear Professor Goldberg:

Thank you very much for your interesting letter of 15 January. I was glad to hear that the proposal for an Institute for Advanced Study in Canada is taking shape. Whatever I can do to help I am certainly willing to do, although I have absolutely no experience in raising funds for a worthy cause. Unfortunately I shall be away from Ottawa fairly frequently during the coming year, starting with a lecture tour in the west during all of February.

With best wishes,

Sincerely yours,

GH:mpt
