Hungarian Academy of Sciences

The Hungarian Academy of Sciences is seeking scientific cooperation with NRC. While Council will not enter into a formal exchange of scientists agreement with the HAS, it will, to some extent, support efforts of its own scientists already collaborating with or planning cooperation with Hungarian scientists.

In order to answer the HAS's request adequately, would you be so kind to indicate whatever interest you might have in the matter:

- a) Are you or your colleagues presently maintaining contact with Hungarian laboratories;
- b) Are you or your colleagues planning to initiate joint research projects with Hungarian scientists;
- c) Do you see any benefits in collaborating with the Hungarians?

I would appreciate it if you could let me have an answer at your earliest convenience. Thanks.

C. Gauvreau,  
International Relations  
Secretariat.
