National Research Council Canada

Statement of Management Responsibility Including Internal Control Over Financial Reporting

Responsibility for the integrity and objectivity of the accompanying consolidated financial statements for the year ended March 31, 2013, and all information contained in these statements rests with the management of the National Research Council Canada (NRC). These consolidated financial statements have been prepared by management using the Government's accounting policies, which are based on Canadian public sector accounting standards.

Management is responsible for the integrity and objectivity of the information in these consolidated financial statements. Some of the information in the consolidated financial statements is based on management's best estimates and judgment, and gives due consideration to materiality. To fulfil its accounting and reporting responsibilities, management maintains a set of accounts that provides a centralized record of NRC's financial transactions. Financial information submitted in the preparation of the Public Accounts of Canada, and included in NRC's *Departmental Performance Report*, is consistent with these consolidated financial statements.

Management is also responsible for maintaining an effective system of internal control over financial reporting (ICFR) designed to provide reasonable assurance that financial information is reliable, that assets are safeguarded and that transactions are properly authorized and recorded in accordance with the *Financial Administration Act* and other applicable legislation, regulations, authorities and policies.

Management seeks to ensure the objectivity and integrity of data in its consolidated financial statements through careful selection, training, and development of qualified staff; through organizational arrangements that provide appropriate divisions of responsibility; through communication programs aimed at ensuring that regulations, policies, standards, and managerial authorities are understood throughout NRC; and through conducting an annual assessment of the effectiveness of the system of ICFR.

The system of ICFR is designed to mitigate risks to a reasonable level based on an ongoing process to identify key risks, to assess the effectiveness of associated key controls, and to make any necessary adjustments.

A risk based assessment of the system of ICFR for the year ended March 31, 2013 was completed in accordance with the Treasury Board *Policy on Internal Control* and the results and action plans are summarized in the annex.

The effectiveness and adequacy of NRC's system of internal control is reviewed by the work of internal audit staff, who conduct periodic audits of different areas of NRC's operations, and by the NRC Departmental Audit Committee, which oversees management's responsibilities for maintaining adequate control systems and the quality of financial reporting, and which recommends the consolidated financial statements to the President.

PricewaterhouseCoopers LLP has expressed an opinion on the fair presentation of the consolidated financial statements of NRC for the year ended March 31, 2013 which does not include an audit opinion on the annual assessment of the effectiveness of NRC's internal controls over financial reporting. The consolidated financial statements of NRC for the year ended March 31, 2012 were audited by the Office of the Auditor General of Canada.

1. Authority and Objectives

The National Research Council Canada (NRC) exists under the *National Research Council Act (NRC Act)* and is a departmental corporation named in Schedule II of the *Financial Administration Act*. The mission of NRC is to work with clients and partners to provide strategic research, scientific and technical services to develop and deploy solutions to meet Canada's current and future industrial and societal needs.

In delivering its mandate, NRC reports under the following program activities:

- Manufacturing Technologies: Multidisciplinary research and development in consultation with industry, universities, government departments and other key innovation players to improve the global competitiveness of Canadian industry by transforming knowledge and innovation into real economic value and by transferring technologies into industrial solutions for the marketplace.
- Information and Communication Technologies (ICT) and Emerging Technologies: Mobilizes, collaborates and partners with key university, government and private sector players and forms major research collaborations to develop integrated research solutions in the areas of information and communication technologies and emerging technologies.
- Industrial Research Assistance (IRAP): Provides a range of technical and business-oriented advisory services, as well as financial support for small and medium-sized Canadian businesses engaged in research and development of technological innovations to augment their capacity and capability to innovate, commercialise and generate significant economic activity for Canadian industry.
- Health and Life Science Technologies: Mobilizes and partners with key university, government and private sector players and forms major research collaborations to develop integrated research solutions for complex health and related life science issues.
- Energy and Environmental Technologies: In partnership with other government departments, universities and industry, brings together the knowledge and expertise needed to make an impact on areas of critical importance to Canada in environmental and sustainable energy.
- National Science and Technology Infrastructure: Manages national science and engineering facilities and infrastructure critical to research, development and innovation by Canadian scientific and technological communities.
- Scientific, Technical and Medical Information: Operates and maintains the national science library, specifically holding the national collection of scientific, technical and medical information, to facilitate knowledge discovery, cross discipline research, innovation and commercialization.
- Internal Services: Groups of activities and resources administered to support the needs of programs and other corporate obligations of the organization. Includes only those activities and resources that apply across the organization and not those provided specifically to a program.

2. Summary of Significant Accounting Policies

These consolidated financial statements have been prepared using the Government's accounting policies stated below, which are based on Canadian public sector accounting standards. The presentation and results using the stated accounting policies do not result in any significant differences from Canadian public sector accounting standards.

Significant accounting policies are as follows:

a) Parliamentary authorities

NRC is financed mainly by the Government of Canada through Parliamentary authorities. Financial reporting of authorities provided to NRC do not parallel financial reporting according to generally accepted accounting principles since authorities are primarily based on cash flow requirements. Consequently, items recognized in the Consolidated Statement of Operations and Departmental Net Financial Position and in the Consolidated Statement of Financial Position are not necessarily the same as those provided through authorities from Parliament. Note 3 provides a reconciliation between the bases of reporting. The planned results amounts in the Consolidated Statement of Operations and Departmental Net Financial Position are the amounts reported in the future-oriented financial statements included in the *2012-13 Report on Plans and Priorities*, which have been reclassified to conform to the current year's presentation.

b) Consolidation

These consolidated financial statements include both NRC and its portion of the accounts of the Canada-France-Hawaii Telescope Corporation (CFHT). The NRC relationship with CFHT meets the definition of a government partnership under Canadian public sector accounting standards, which requires that its results be proportionally consolidated within those of NRC. All inter-organizational balances and transactions are eliminated as part of the consolidation process. CFHT has audited financial statements as at December 31, 2012 which have been proportionally consolidated with NRC's March 31, 2013 financial statements.

c) Net cash provided by Government

NRC operates within the Consolidated Revenue Fund (CRF), which is administered by the Receiver General for Canada. All cash received by NRC is deposited to the CRF and all cash disbursements made by NRC are paid from the CRF. The net cash provided by Government is the difference between all cash receipts and all cash disbursements including transactions between departments (including agencies) of the Government.

d) Amounts due from or to the CRF

Amounts due from or to the CRF are the result of timing differences at year-end between when a transaction affects authorities and when it is processed through the CRF. Amounts due from the CRF represent the net amount of cash that NRC is entitled to draw from the CRF without further authorities to discharge its liabilities.

e) Revenues

Revenues are recognized in the year in which the underlying transaction or event occurred that gave rise to revenue as follows:

- Research and Technical services: revenues are recognized as services are provided based on percentage-of-completion.
- Intellectual property, royalties and fees: revenues are recognized over the licence period.
- Sales of goods and information products: revenue is recognized when goods or information products are delivered to the client.
- Rentals: revenue is recognized in the period in which the lease or use of property relates to.
- Grants and contributions: revenue is recognized when the transfer payment is authorized and any eligibility criteria are met, except to the extent that transfer stipulations give rise to an obligation that meets the definition of a liability.

Funds received for which NRC has an obligation to other parties for the provision of goods, services or the use of assets in the future are recorded as deferred revenue.

Receipts are deposited to the CRF. Under the *NRC Act*, money received by NRC through the conduct of its operations is respendable in the current or in subsequent years.

Revenues that are non-respendable are not available to discharge NRC's liabilities. While the President is expected to maintain accounting control, he has no authority regarding the disposition of non-respendable revenues. As a result, non-respendable revenues are considered to be earned on behalf of the Government of Canada and are therefore presented in reduction of the NRC's gross revenues.

f) Expenses

- Expenses are recorded on the accrual basis.
- Contributions are recognized in the year in which the recipient has met the eligibility criteria or fulfilled the terms of a contractual transfer agreement, provided that the transfer is authorized and a reasonable estimate can be made.
- Grants are recognized in the year in which the conditions for payment are met. In the case of grants which do not form part of an existing program, the expense is recognized when the Government announces a decision to make a non-recurring transfer, provided the enabling legislation or authorization for payment receives parliamentary approval prior to the completion of the consolidated financial statements.
- Vacation pay and compensatory leave are accrued as the benefits are earned by employees under their respective terms of employment.
- Services provided without charge by other government departments and agencies for accommodation, employer contributions to the health and dental insurance plans, legal services, workers' compensation and the services related to the email, data centre and network services and the email, data centre and network support unit are recorded as operating expenses at their estimated cost.

g) Employee future benefits

i) Pension Benefits

Eligible employees participate in the Public Service Pension Plan, a multiemployer pension plan administered by the Government of Canada. NRC’s contributions to the Plan are charged to expenses in the year incurred and represent NRC’s total obligation to the Plan. NRC's responsibility with regard to the Plan is limited to its contributions. Actuarial surpluses or deficiencies are recognized in the financial statements of the Government of Canada, as the Plan's sponsor.

ii) Severance Benefits

Employees entitled to severance benefits under labour contracts or conditions of employment earn these benefits as services necessary to earn them are rendered. The obligation relating to the benefits earned by employees is calculated using information derived from the results of the actuarially determined liability for employee severance benefits for the Government as a whole.

h) Lease inducements

Lease inducements represent incentives received by NRC to enter into lease agreements for property at a nominal cost of one dollar. Lease inducements are deferred and amortized on the same basis as the related depreciable tangible capital assets.

i) Accounts receivable

Accounts receivable are stated at the lower of cost and net recoverable value. A valuation allowance is recorded for receivables where recovery is considered uncertain.

j) Contingent liabilities

Contingent liabilities are potential liabilities, which may become actual liabilities when one or more future events occur or fail to occur. To the extent that the future event is likely to occur or fail to occur, and a reasonable estimate of the loss can be made, an estimated liability is accrued and an expense recorded. If the likelihood is not determinable or an amount cannot be reasonably estimated, the contingency is disclosed in the notes to the consolidated financial statements.

k) Environmental liabilities

Environmental liabilities reflect the estimated costs related to the management and remediation of environmentally contaminated sites. Based on management's best estimates, a liability is accrued and an expense recorded when the contamination occurs or when NRC becomes aware of the contamination and is obligated, or is likely to be obligated to incur such costs. If the likelihood of NRC's obligation to incur these costs is not determinable, or if an amount cannot be reasonably estimated, the costs are disclosed as contingent liabilities in the notes to the consolidated financial statements.

l) Inventories

Inventory consists of parts, materials and supplies held for future program delivery as well as inventory for resale. Inventory for resale is recorded at the lower of cost, using the average cost method, or net realizable value. Inventory for consumption is recorded at cost using the average cost method.

m) Equity investments

Equity investments include shares in public and privately-held companies. Equity investments are typically obtained as a result of debt settlement negotiations or as a result of non-monetary transactions (where financial assistance at better-than-market conditions was provided to firms through access to intellectual property, equipment and incubation space in laboratories). If the estimates of the non-monetary transactions cannot be determined, the equity investments are initially recorded at a nominal value. Otherwise they are initially recorded at fair value based on market prices. If the fair value of equity investments becomes lower than the book value and this decline in value is considered to be other than temporary, the equity investments are written down to fair value.

n) Endowment fund investments

Endowments consist of donations subject to externally imposed restrictions stipulating that the resources be maintained permanently by NRC. Income from the endowment fund investments may only be used for the purposes established by the donors.

Funds received for endowments are invested in bonds and other low risk instruments and are carried at amortized cost. Discounts and premiums arising on the purchase of these investments are amortized over the term of the investments.

o) Foreign currency transactions

Transactions involving foreign currencies are translated into Canadian dollar equivalents using rates of exchange in effect at the time of those transactions. Monetary assets and liabilities denominated in a foreign currency, and CFHT assets and liabilities, are translated into Canadian dollars using the rate of exchange in effect at year end. Gains and losses resulting from foreign currency transactions are included in the applicable line on the Consolidated Statement of Operations and Departmental Net Financial Position according to the activities to which they relate. Net gains and losses relating to the sale of goods or services denominated in a foreign currency are included in revenues. Net gains and losses relating to the purchase of goods or services denominated in a foreign currency are included in expenses. Contractual obligations may contain foreign currencies that are translated into Canadian dollar equivalents using the rate of exchange in effect at March 31, 2013. CFHT revenues and expenses are translated into Canadian dollar equivalents using the average rate during the fiscal year.

p) Tangible capital assets

All tangible capital assets and leasehold improvements having an initial cost of $5,000 or more are recorded at their acquisition cost. Contributed tangible capital assets are recorded at fair value at the date of contribution. NRC does not capitalize intangibles, works of art and historical treasures that have cultural, aesthetic or historical value. Assets acquired under tangible capital leases are initially recorded at the lower of the present value of the minimum lease payments at the inception of the lease or fair value. Tangible capital assets held for sale are recorded at the lower of their carrying value or fair value less cost to sell and no amortization is recorded once the tangible capital asset is deemed held for sale.

Amortization of tangible capital assets is calculated on a straight-line basis over the estimated useful life of the asset as follows:

Asset Class	**Amortization Period**
Land	Not applicable
Buildings and facilities	25 years
Works and infrastructure	25 - 40 years
Machinery, equipment and furniture	10 years
Informatics equipment	5 years
Informatics software	5 years
Vehicles	7 years
Aircraft	15 - 30 years
Leasehold improvements	Lesser of the remaining term of the lease or useful life of the improvement
Leased tangible capital assets	In accordance with asset class

Assets under construction are recorded in the applicable capital asset class in the year that they become available for use and are not amortized until they become available for use.

Where NRC enters into land leases at a nominal value, the transaction is considered as a non-monetary transaction and is recorded at fair value. If the fair value cannot be reasonably determined, the amount of the transaction is recorded at a nominal value.

The tangible capital assets consolidated from the CFHT Corporation are stated at cost. Amortization is calculated on the straight-line method over the estimated useful lives of the tangible capital assets ranging from 4 to 50 years.

q) Asset retirement obligations

Liabilities are recognized for statutory, contractual or legal obligations, when incurred, associated with the retirement of tangible capital assets when those obligations result from the acquisition, construction, development or normal operation of the assets. The obligations are measured initially at fair value, determined using present value methodology, and the resulting costs capitalized into the carrying amount of the related asset. In subsequent periods, the liability is adjusted for the accretion of discount and any changes in the amount or timing of the underlying future cash flows. The capitalized asset retirement cost is depreciated on the same basis as the related asset and the discount accretion is included in determining the results of operations.

r) Measurement uncertainty

The preparation of these consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses reported in the consolidated financial statements. At the time of preparation of these statements, management believes the estimates and assumptions to be reasonable. The most significant items where estimates are used are percentage-of-completion on revenue from the provision of services, contingent liabilities, contaminated site liabilities, asset retirement obligations, the liability for employee severance benefits, the allowance for doubtful accounts, the fair value of non-monetary transactions related to leased tangible capital assets and the useful life of tangible capital assets. Actual results could significantly differ from those estimated. Management's estimates are reviewed periodically and, as adjustments become necessary, they are recorded in the consolidated financial statements in the year they become known.

3. Parliamentary Authorities

NRC receives most of its funding through annual parliamentary authorities. Items recognized in the Consolidated Statement of Operations and the Departmental Net Financial Position and the Consolidated Statement of Financial Position in one year may be funded through parliamentary authorities in prior, current or future years. Accordingly, NRC has different net results of operations for the year on a government funding basis than on an accrual accounting basis. The differences are reconciled in the following tables:

a) Reconciliation of net cost of operations to current year authorities used

(in thousands of dollars)	**2013**	**2012**
Net Cost of Operations before government funding and transfers	759,753	676,730
Adjustments for items affecting net cost of operations but not affecting authorities:		
Revenues	155,272	170,913
Amortization of tangible capital assets	(64,637)	(66,012)
Financial arrangements with other government departments and agencies	(51,148)	(62,595)
Services provided without charge by other government departments and agencies (Note 14)	(46,498)	(40,710)
Refund of previous years' expenditures	4,909	3,680
Increase in salary accrual	(4,871)	(9,179)
Decrease in vacation pay and compensatory leave	3,413	2,811
Decrease in employee future benefits	1,091	1,339
Other	(692)	430
Cost of goods sold	(654)	(2,495)
Decrease (increase) in contaminated sites liability	298	(600)
Decrease in accrued liabilities not charged to authorities	175	415
(Decrease) increase in inventory	(173)	32
Loss on disposal of tangible capital assets	(126)	(1,435)
Bad debt expense	(14)	2
Specified purpose accounts expenses	-	(22,533)
Total items affecting net cost of operations but not affecting authorities	(3,655)	(25,937)
Adjustments for items not affecting net cost of operations but affecting authorities:		
Acquisitions of tangible capital assets and additions to assets under construction	46,620	44,550
Increase in prepaid expenses	1,213	172
Inventory purchases	660	2,878
Contaminated sites remediation reducing the liability	142	43
Decrease in lease obligations for tangible capital assets	71	67
Total items not affecting net cost of operations but affecting authorities	48,706	47,710
Current year authorities used	**804,804**	**698,503**

b) Authorities provided and used

(in thousands of dollars)	2013	2012
Authorities provided:		
Vote 60 – Operating expenditures	411,933	405,687
Vote 65 – Capital expenditures	42,309	42,265
Vote 70 – Grants and contributions	260,466	165,275
Statutory amounts:		
Revenues pursuant to paragraph 5(1)(e) of the *National Research Council Act*	188,038	146,959
Contributions to employee benefit plans	56,812	59,766
Proceeds from the disposal of surplus Crown assets	534	964
Collection agency fees	5	18
Loss on foreign exchange	-	3
Less:		
Revenues available for use in future years	(142,539)	(96,728)
Lapsed authorities:		
Frozen allotments - Operating	(5,091)	(1,489)
Frozen allotments - Capital	(76)	(6,942)
Unexpended authorities - Grants and contributions	(7,226)	(17,275)
Unexpended authorities - Operating	(361)	-
Current year authorities used	**804,804**	**698,503**

4. Accounts Payable and Accrued Liabilities

The following table presents details of NRC's accounts payable and accrued liabilities:

(in thousands of dollars)	2013	2012
Accounts payable - External parties	127,569	74,275
Accounts payable - Other government departments and agencies (Note 14)	16,844	12,436
Accrued wages and employee benefits	21,459	16,588
Contractor holdbacks	1,055	749
Contaminated site liabilities	197	637
Sales tax payable	364	119
CFHT - Accounts payable	72	116
Gross accounts payable and accrued liabilities	**167,560**	**104,920**
Accounts payable and accrued liabilities held on behalf of government (Note 14)	-	(2,115)
Net accounts payable and accrued liabilities	**167,560**	**102,805**

In *Canada's Economic Action Plan 2012*, the Government of Canada announced savings measures to be implemented by departments over the next three fiscal years starting in 2012-2013. Other savings measures have also been implemented by NRC. As a result, NRC has recorded at March 31, 2013 an obligation for termination benefits for an amount of $1,578,000 ($5,239,000 in 2012) as part of accrued wages and employee benefits to reflect the estimated workforce adjustment costs.

5. Deferred Revenue

Deferred revenue represents the balances at year-end of unearned revenues stemming from amounts received from external parties that are restricted in order to fund the expenditures related to specific research projects and stemming from amounts received for fees prior to services being performed. Revenue is recognized in the period in which these expenditures are incurred or in which the service is performed. Details of the transactions related to this account are as follows:

(in thousands of dollars)	**2013**	**2012**
Opening balance	15,151	15,689
Funds received	31,213	31,095
Revenue recognized	(34,957)	(31,633)
Closing balance	11,407	15,151
CFHT – Deferred revenue	91	56
Total deferred revenue	**11,498**	**15,207**

6. Lease Obligation for Tangible Capital Assets

NRC has entered into an agreement to lease mechanical test equipment under capital lease with a cost of $336,000 and accumulated amortization of $89,600 as at March 31, 2013 ($336,000 and $56,000 respectively as at March 31, 2012). The obligations related to the upcoming years include the following:

(in thousands of dollars)	**2013**	**2012**
2013	-	80
2014	80	80
Total future minimum lease payments	80	160
Less: imputed interest (6.11%)	(5)	(14)
Balance of obligations under leased tangible capital assets	**75**	**146**

7. Employee Future Benefits

a) Pension benefits

Eligible NRC employees participate in the Public Service Pension Plan, which is sponsored and administered by the Government. Pension benefits accrue up to a maximum of 35 years at a rate of 2% per year of pensionable service, times the average of the best five consecutive years of earnings. The benefits are integrated with Canada/Québec Pension Plans benefits and they are indexed to inflation.

Both the employees and NRC contribute to the cost of the Plan. The expense amounted to $40,563,757 as at March 31, 2013 ($42,958,202 in 2012), which represented approximately 1.7 times (1.8 times in 2012) the contributions by employees.

NRC's responsibility with regard to the Plan is limited to its contributions. Actuarial surpluses or deficiencies are recognized in the financial statements of the Government of Canada, as the Plan's sponsor.

b) Severance benefits

NRC provides severance benefits to its employees based on eligibility, years of service and salary at termination of employment. These severance benefits are not pre-funded. Benefits will be paid from future authorities.

As part of changes to conditions of employment for executives and certain non-represented employees, the accumulation of severance benefits under the employee severance pay program ceased for these employees commencing in 2012. Employees subject to these changes have been given the option to be immediately paid the full or partial value of benefits earned to date or collect the full or remaining value of benefits on termination from the public service. These changes have been reflected in the calculation of the outstanding severance benefit obligation.

Information about the severance benefits, measured as at March 31, is as follows:

(in thousands of dollars)	**2013**	**2012**
Accrued benefit obligation, beginning of year	68,332	71,099
Transferred to other government department, effective November 15, 2011	-	(1,428)
Subtotal	68,332	69,671
Expense for the year	7,138	7,660
Benefits paid during the year	(8,229)	(8,999)
Accrued benefit obligation, end of year	**67,241**	**68,332**

8. Accounts Receivable and Advances

The following table presents details of NRC's accounts receivable and advances balances:

(in thousands of dollars)	**2013**	**2012**
Receivables from external parties	26,377	21,877
Receivables from other government departments and agencies (Note 14)	4,516	5,172
CFHT – Accounts receivable	75	174
Employee advances	-	32
	30,968	27,255
Less: allowance for doubtful accounts on receivables from external parties	(327)	(497)
	30,641	26,758
Repayable contributions	-	6,902
Less: allowance for uncollectibility	-	(4,787)
Net repayable contributions	-	2,115
Gross accounts receivable	**30,641**	**28,873**
Accounts receivable held on behalf of Government	(76)	(2,418)
Net accounts receivable	**30,565**	**26,455**

9. Cash and Investments

(in thousands of dollars)	**2013**	**2012**
Cash and investments held by CFHT	2,529	2,440
Equity investments	215	344
Cash and investments	**2,744**	**2,784**

Equity investments include shares in three public companies (three in 2012) and one privately held company (one in 2012). These shares were obtained through debt settlement or non-monetary transactions. NRC will consider timely opportunities for divestiture of equity investments by taking into account the interests, market liquidity and expected future growth of the applicable company.

NRC recorded an impairment reducing the value of its shares in two publically held companies by an amount of $129,346 ($127,688 in 2012).

As at March 31, 2013, the book value of the equity investments was $214,917 ($344,263 in 2012). The market value of NRC’s equity investments in public companies was $107,685 ($169,685 in 2012). The market value of the privately held companies is not determinable.

10. Endowment Fund Investments

This account was established pursuant to paragraph 5(1)(f) of the *National Research Council Act* to record the residue of the estate of the late H.L. Holmes. Up to two thirds of the endowment fund's annual net income is used to finance the H.L. Holmes award on an annual basis. The award provides the opportunity to post-doctoral students to study at world famous graduate schools or research institutes under outstanding researchers.

(in thousands of dollars)	**2013**	**2012**
Restricted cash and investments, beginning of year	4,724	4,631
Net income from endowment	196	208
Awards granted	(108)	(115)
Restricted cash and investments, end of year	**4,812**	**4,724**

The portfolio for endowment fund investments had an average effective return of 3.99% (4.41% in 2012) and an average term to maturity of 3.92 years as at March 31, 2013 (4.48 years as at March 31, 2012). The fair value of the endowment investments as at March 31, 2013 was $5,141,690 ($5,036,346 in 2012).

11. Tangible Capital Assets

(in thousands of dollars)	Cost					Accumulated Amortization					Net Book Value	
Tangible capital asset class	Opening balance	Acquisitions	Adjustments (1)	Disposals and write-offs	Closing balance	Opening balance	Amortization	Adjustments	Disposals and write-offs	Closing balance	2013	2012
Land	9,879	-	-	-	9,879	-	-	-	-	-	9,879	9,879
Buildings and facilities	704,928	10,742	(423)	-	715,247	(428,489)	(22,359)	94	-	(450,754)	264,493	276,439
Works and infrastructure	24,926	965	726	-	26,617	(15,835)	(1,011)	-	-	(16,846)	9,771	9,091
Machinery, equipment and furniture	525,771	10,319	15,724	(10,965)	540,849	(368,990)	(31,201)	(4,937)	10,286	(394,842)	146,007	156,781
Informatics equipment	51,479	830	563	(1,361)	51,511	(41,300)	(3,709)	(512)	1,373	(44,148)	7,363	10,179

Vehicles	3,051	316	-	(239)	3,128	(2,247)	(195)	-	233	(2,209)	919	804
Aircraft	12,003	112	21	-	12,136	(10,487)	(37)	-	-	(10,524)	1,612	1,516
Leasehold improvements	17,416	36	-	(100)	17,352	(4,337)	(771)	-	99	(5,009)	12,343	13,079
Assets under construction	21,334	22,647	(10,925)	(45)	33,011	-	-	-	-	-	33,011	21,334
Leased tangible capital assets	64,036	-	-	-	64,036	(18,263)	(2,581)	-	-	(20,844)	43,192	45,773
CFHT - Tangible capital assets	21,038	191	(62)	(106)	21,061	(15,735)	(632)	-	105	(16,262)	4,799	5,303
Total	1,474,259	46,812	6,250	(12,799)	1,514,522	(918,781)	(64,637)	(5,382)	12,105	(976,695)	537,827	555,478

(1) Adjustments include assets under construction of $10,925,000 that were transferred to the other categories upon completion of the assets.

During the year, NRC received machinery, equipment and furniture and informatics equipment with a cost of $6,298,207 and accumulated amortization of $5,360,057 (net book value of $938,150) from various government departments. NRC also transferred machinery, equipment and furniture with a cost of $597,858 and accumulated amortization of $184,339 (net book value of $413,519) to a government department.

Amortization expense for the year ended March 31, 2013 is $64,637,390 ($66,012,243 in 2012).

At March 31, 2013, NRC held nine land lease agreements (nine in 2012) for a nominal annual cost with universities. In these instances, NRC owns the building on the leased land. The fair value of the land leases for these non-monetary transactions could not be determined at the inception of the lease therefore they are recorded at a nominal value.

On March 21, 1996, NRC entered into a non-monetary transaction consisting of a lease agreement with the University of Western Ontario, whereby leased property was provided to NRC for twenty-five years at a nominal cost of one dollar. The property was recorded as a leased tangible capital asset at its fair value of $10,000,000. The annual amortization of $400,000 for the leased tangible capital asset is exactly offset by the amortization of the deferred contribution related to the leased property.

On May 23, 2006, NRC took possession of a new facility and entered into a non-monetary transaction with the University of Alberta at a nominal cost of one dollar per year. The lease provides a one year term with options to renew on ten sequential occasions, each of the first nine renewals to be for a period of five years and the tenth renewal for a period of four years. The building was recorded as a leased tangible capital asset at its fair value of $44,400,000. The annual amortization of $1,776,000 for the leased tangible capital asset is exactly offset by the amortization of the deferred contribution related to the leased building.

On September 1, 2006, NRC took possession of a new facility and entered into a non-monetary transaction with the University of Prince Edward Island at a nominal cost of one dollar per year. The lease provides a nineteen month term with renewal options for seven additional periods of five years, and one additional period of three years and five months (to August 31, 2046). The building was recorded as a leased tangible capital asset at its fair value of $9,300,000. The annual amortization of $372,000 for the leased tangible capital asset is exactly offset by the amortization of the deferred contribution related to the leased building.

12. Contractual Obligations

The nature of NRC's activities can result in some large multi-year contracts and obligations whereby NRC will be obligated to make future payments in order to carry out its transfer payment programs or when the services/goods are received. Transfer payments and significant operating contractual obligations that can be reasonably estimated are summarized as follows:

(in thousands of dollars)	**2014**	**2015**	**2016**	**2017**	**2018 and thereafter**	**Total**
Transfer payments	170,933	62,145	5,729	-	-	238,807
Operating contracts	23,137	7,183	670	266	52	31,308
Total	**194,070**	**69,328**	**6,399**	**266**	**52**	**270,115**

Transfer payments contractual obligations to CFHT as shown in Note 14c have been excluded from the future contractual obligations.

13. Contingent Liabilities

Contingent liabilities arise in the normal course of operations and their ultimate disposition is unknown. They are grouped into three categories as follows:

a) Contaminated sites

Liabilities are accrued to record the estimated costs related to the management and remediation of contaminated sites where NRC is obligated or likely to be obligated to incur such costs. For 2013, NRC has identified four sites (four sites in 2012) where such action is possible and for which a liability of $197,000 ($636,995 in 2012) has been recorded in accounts payable and accrued liabilities. The estimate has been prepared using current market rates and is based on the results of initial testing performed by NRC at suspect sites. NRC's ongoing efforts to assess contaminated sites may result in additional environmental liabilities related to newly identified sites, or changes in the assessments or intended use of existing sites. These liabilities will be accrued by NRC in the year in which they become likely and are reasonably estimable.

b) Claims and litigation

Claims have been made against NRC in the normal course of operations. Legal proceedings for three claims were pending at March 31, 2013 (three in 2012). NRC has one claim that it believes will likely result in a liability where the amount is determinable (nil in 2012), no claim that it believes will likely result in a liability where the amount is undeterminable (one in 2012) and two claims that it believes will unlikely result in a liability (two in 2012). NRC has recorded an allowance for claims and litigations where it is likely that there will be a future payment and a reasonable estimate of the loss can be made.

c) Asset retirement obligations

As at March 31, 2013 NRC has recognized an asset retirement obligation of $273,000 ($265,000 in 2012) in the consolidated financial statements as a result of its legal obligation to retire storage tank systems for petroleum products and allied petroleum products. The undiscounted amount of expected future cash flows required to settle the asset retirement obligation is estimated at $435,000 ($443,000 in 2012). The liability for the expected future cash flows, as reflected in the consolidated financial statements, has been discounted at a weighted average of 3.38% (3.81% in 2012) based on the Government of Canada benchmark bonds. This obligation will be settled over the useful lives of the operating assets. The following table summarizes the changes in the asset retirement obligations:

(in thousands of dollars)	**2013**	**2012**
Asset retirement obligations, beginning of year	265	253
Accretion of asset retirement obligations	8	12
Asset retirement obligations, end of year	**273**	**265**

Other asset retirement obligations, such as the costs associated with the removal and disposal of asbestos and other designated substances located in NRC buildings, have not been recognized in the consolidated financial statements due to the fact that they are subject to several uncertainties. NRC generally incurs the cost of removing and disposing regulated substances during major building renovations; consequently the timing and scope of these renovations cannot be reasonably estimated at this time and therefore fair values cannot be reasonably determined. Changes in these assumptions and uncertainties could materially affect NRC's assets and liabilities as well as the resulting amortization and accretion expenses related to the asset retirement obligation.

14. Related Party Transactions

NRC is related as a result of common ownership to all Government departments, agencies, and Crown corporations. NRC enters into transactions with these entities in the normal course of business and on normal trade terms. During the year, NRC received common services which were obtained without charge from other government departments as disclosed below.

a) Common services provided without charge by other government departments and agencies

During the year, NRC received services without charge from other government departments and agencies. These services have been recognized in NRC's Consolidated Statement of Operations and Departmental Net Financial Position as follows:

(in thousands of dollars)	**2013**	**2012**
Employer's contributions to the health and dental insurance plans provided by Treasury Board	29,317	30,267
Email, data centre and network services and the email, data centre and network support unit provided by Shared Services Canada	16,146	8,667
Audit of NRC's consolidated financial statements provided by the Office of the Auditor General of Canada	-	850
Legal services provided by Justice Canada	600	483
Workers' compensation benefits provided by Human Resources and Skills Development Canada	259	273
Accommodation provided by Public Works and Government Services Canada	176	170
Total	**46,498**	**40,710**

The Government has centralized some of its administrative activities for efficiency, cost-effectiveness purposes and economic delivery of programs to the public. As a result, the Government uses central agencies, and common service organizations so that one department performs services for all other departments and agencies without charge. The costs of these services, such as the payroll and cheque issuance services provided by Public Works and Government Services Canada are not included in NRC's Consolidated Statement of Operations and Departmental Net Financial Position.

The activities related to the email, data centre and network services unit and the email, data centre and network support unit were transferred to Shared Services Canada on November 15, 2011. The services provided after the transfer date are recognized without charge.

b) Other transactions with related parties

(in thousands of dollars)	**2013**	**2012**
Accounts receivable from other government departments and agencies	4,516	5,172
Accounts payable to other government departments and agencies	16,844	10,321
Expenses – Other government departments and agencies	67,352	75,995
Revenues – Other government departments and agencies	54,297	64,537

Expenses and revenues disclosed in (b) exclude common services provided without charge, which are already disclosed in (a).

c) Canada-France-Hawaii Telescope Corporation

NRC has a related party relationship with the following non-federal government entity:

NRC was a founding member of the Canada-France-Hawaii Telescope Corporation (CFHT), a tax-exempt, not-for-profit organization established under Hawaii State law to design, construct, and operate a large optical telescope near the summit of Mauna Kea, Hawaii, USA, along with laboratories, equipment, and associated installations. The Corporation was established in 1974 by a Tripartite Agreement among the NRC, the Centre National de la Recherche Scientifique of France, and the University of Hawaii. NRC makes annual contributions to fund its 42.5% share of the cost of operations of the telescope and receives no direct benefit in return. However, as a result of NRC's contributions, Canada receives access to telescope observation hours for Canadian astronomers. As a founding member, NRC can appoint four of the ten members of the board of directors. The NRC relationship with CFHT is considered a government partnership for accounting purposes and CFHT results are proportionally consolidated in these statements. In 2012-13, NRC contributed $3.1 million to CFHT ($3.5 million in 2011-12). These contributions are eliminated upon consolidation. CFHT's condensed financial information for the period ending December 31 is as follows:

(in thousands of dollars)	**December 31, 2012**	**December 31, 2011**
Total assets	17,980	19,047
Total liabilities	1,598	1,566
Total unrestricted net assets	16,382	17,481
Total revenues	8,569	8,576
Total expenses	9,495	9,619
Net operating results	(926)	(1,043)

NRC's future contractual obligations to CFHT are not included in the transfer payment contractual obligations (Note 12) and are as follows:

(in thousands of dollars)	**2014**	**2015**	**2016**	**2017**	**2018 and thereafter**	**Total**
CFHT	3,261	3,342	3,426	2,503	-	12,532

15. Transfers from/to other government departments

In 2012-13, NRC paid accounts payable on behalf of Shared Services Canada for a total amount of $1,053,000. In addition, NRC received machinery, equipment and furniture and informatics equipment from various government departments. NRC also transferred machinery, equipment and furniture to a government department. The transactions can be summarized as follows:

(in thousands of dollars)	**2013**	**2012**
Net tangible capital assets transfers	(525)	1,518
Payment of accounts payable on behalf of Shared Services Canada	1,053	-
Transfer of accounts payable and accrued liabilities	-	(3,582)
Total	**528**	**(2,064)**

16. Segmented Information

Presentation by segment is based on NRC's program alignment architecture (PAA). NRC allocates transactions over the PAA in accordance with stewardship principles, based on the Portfolios, Branch or IRAP (P/B/I) that is responsible for managing the resource.

The presentation by segment is based on the same accounting policies as described in the Summary of significant accounting policies in Note 2. The following table presents the expenses incurred and revenues generated for the main program activities, by major object of expenses and by major type of revenues. The segment results for the period are as follows:

(in thousands of dollars)	Manufacturing Technologies	ICT and Emerging Technologies	Industrial Research Assistance	Health and Life Sciences Technologies	Energy and Environmental Technologies	National Science and Technology Infrastructure	Scientific, Technical and Medical Information	Internal Services	**2013 Total**	**2012 Total**

17. Financial Instruments

NRC’s financial instruments consist of accounts receivable and advances, investments and accounts payable and accrued liabilities. Unless otherwise noted, it is management’s opinion that NRC is not exposed to significant interest, currency or credit risk arising from these financial instruments. Unless otherwise disclosed in these consolidated financial statements, management estimates that the carrying values of the financial instruments approximate their fair value due to their impending maturity.

18. Comparative Information

Comparative figures have been reclassified to conform to the current year's presentation.
