Dr. J. L. Locke

I have just received a copy of the new Photometric Atlas of the Solar Spectrum from Dr. Howard of Air Force Cambridge Research Laboratories. In the event that you do not have this atlas in the Astrophysics Branch I thought you ought to know that it is available in my office. Naturally we shall not make a great deal of use of the atlas, and I am anxious to see that all those who might have some use for it are aware of its availability.
